PROFILE

Result-driven final-year Software Engineering student with expertise in **Full Stack Web Development**. Proficient in *React JS, Node, Express, and databases*. Adept at crafting high-quality solutions through robust coding and problem-solving skills. Committed to contributing to innovative projects and driving impactful results through cutting-edge technologies

EDUCATION

FSC Pre-Engineering, Govt Post Graduate College, Muzaffargarh 2018 – 2020
1022/1100 (92%)

BS Software Engineering, COMSATS University Lahore 2020 – 2024
CGPA: 2.96 (74%)
~ Currently in 7th Semester

PROJECTS

React Portfolio

Designed and developed a sleek, professional portfolio website using React JS to showcase advanced web development skills. This interactive platform effectively highlights key projects, demonstrating a strong proficiency in modern web technologies.

The Bankist App

Developed in JavaScript with robust login, facilitates seamless tracking of transactions—deposits, withdrawals, and loans. Streamlining user financial management through an intuitive interface

The Pig Dice Game

JavaScript-based interactive 2-player dice game. Players roll dice, accumulate scores, and strategize to avoid losing points when one appears. The game emphasizes JavaScript proficiency and user-friendly design.

Task Tracker

Created an intuitive Todo List web app with add, delete, and update features. Enhanced user experience with task completion tracking and dynamic dark/light theme toggling.

Blogging Web Application

Developed a Web platform that empowers users to create engaging blogs while offering access to read and interact with content shared by fellow users.

Cinema Ticket Management System

Developed a Java-based application automating streamlined reservation, ticket generation, billing, and admin control of movies and customer details for efficient monitoring and administration.

TECHNICAL SKILLS

Frontend: (HTML, CSS (SAAS, Bootstrap), JavaScript, React JS, React Native)

Backend: (Express JS, Node JS, API) | **Databases:** (MongoDB, Firebase)

Other: (jQuery, Ajax, Java, OOP, C/C++, Figma, Git, DSA, Problem Solving, Testing and Debugging)

Stack: (MERN Stack)
